

## Patient Privacy

With the exceptions outlined in the **TCU Health Center Privacy Practices** the TCU Health Center cannot disclose your medical information to any individual, organization, or faculty – including other campus departments, faculty, or staff – unless you give your written permission for us to do so.

This means we cannot tell your roommate, a professor, or even a family member about your appointments, calls to the Health Center, or consultations with staff in our Health Center.

The Health Insurance Portability and Accountability Act (HIPAA) requires that we make all UHS patients aware of our Notice of Privacy Practices. This notice describes how medical information about you may be used and disclosed and how you can get access to your medical information.
